

MONITOR PIG HEALTH

WITH THE MOST COMPLETE RANGE OF SWINE **ELISA & PCR** TEST KITS

FMD Type O, A, Asia1 (ELISA)

APP (ELISA)

Mhyo (ELISA)

FMD NSP (ELISA)

CSF (ELISA)

Brucellosis (ELISA)

CSF (ELISA)

ASF (ELISA & PCR)

Hepatitis (ELISA)

PED (ELISA)

Swine flu (ELISA)

Aujeszky gB/gE (ELISA)

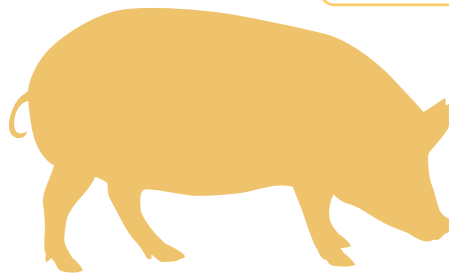

Toxoplasmosis (ELISA)

Tuberculosis (PCR)

PRRS (ELISA & PCR)

SVD (ELISA)

Trichinellosis (ELISA)

- + High-performance, robust and easy-to-use
- + Freeze-dried positive controls available as reference material
- + Convenient data analysis with the ID soft™ software program

Product List

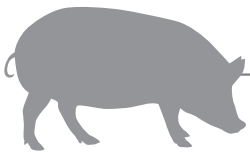

With you at every step

DIAGNOSTIC SOLUTIONS FOR EFFICIENT FMD CONTROL AND ERADICATION

- ID Screen® FMD NSP Competition
- ID Screen® FMD Type O Competition
- ID Screen® FMD Type A Competition
- ID Screen® FMD Type Asia1 Competition
- ID Screen® FMD pan-serotype Antigen capture

Effective tools for detecting and monitoring ASF

ID Screen® African Swine Fever Indirect ELISA

Accurate and reliable results

- + Validated by the European Union Reference Laboratory, CISA-INIA, Spain
- + High specificity (99.4%) even on hemolyzed samples
- + Additional protocols for meat juice and blood filter paper samples.
- + Screening and confirmation (biwell) formats available

ID Gene™ African Swine Fever Triplex PCR

Ultra-rapid and reliable results in only 35 minutes

- + Validated by the European Reference Laboratory (EURL), CISA-INIA, Spain
- + Extensively used in ASF control programs around the world
- + Pools of up to 20 samples, thanks to high test sensitivity
- + Detects all ASF genotypes
- + Compatible with most extraction systems, all thermocyclers
- + Ready-to-use liquid format with economical room temperature shipping worldwide
- + Contains an **endogenous control** and an **exogenous control**
